1 | FOREWORDS FROM AEROMART'S INSTITUTIONAL PARTNERS

Carole Delga

President - Région Occitanie / Pyrénées – Méditerranée

President - AD'OCC

"It's in Europe's cradle of aeronautics, here in Occitanie, that the green aircraft of tomorrow is being built. Since 2022, the Occitanie region has launched a €150 million initiative to support manufacturers in the development of low-carbon aircraft. This ambitious plan not only ensures Europe and France remain at the forefront of aerospace innovation but also preserves the critical skills and expertise rooted in our regions.

As we face the challenges of tomorrow, our mission is clear: to maintain connections between people with aircraft that are lighter, more energy-efficient, and sustainable. Thanks to Aeromart, the entire aerospace ecosystem comes together in Occitanie to collaborate, innovate, and accelerate the journey towards low-carbon aviation.

I am proud to host this premier event in our region. It not only strengthens our international influence but also lays the foundation for the future successes of the global aerospace industry."

toulouse
métropole

Jean-Luc Moudenc

Maire de Toulouse

Président de Toulouse Métropole

Toulouse: Europe's Aerospace Capital

Toulouse is proud to host a dynamic ecosystem that solidifies its position as the European capital of aerospace, encompassing both aeronautics and space.

As a land of pioneers, Toulouse has been shaping the history of aeronautics for over a century. Today, this sector remains a cornerstone of our region's economy, continually driving innovation and creating jobs.

Aeronautics and space industries contribute significantly to the metropolitan area, providing nearly 68,700 jobs—representing 11% of salaried employment across all sectors.

To support this sector of excellence, we are undertaking ambitious initiatives, particularly around the Francazal and Toulouse Aerospace campuses of excellence. These projects aim to foster innovation and secure the future of the industry through advanced research, cutting-edge infrastructure, and a thriving talent pipeline.

- **Francazal Campus:** Focused on low-carbon aviation and next-generation mobility, this site hosts companies at the forefront of sustainable aerospace innovation. In collaboration with institutional and private partners, we are proud to develop Europe's largest research and testing center dedicated to green hydrogen on this campus.
- **Toulouse Aerospace Campus:** This hub unites over 3,000 employees, researchers, and students, advancing key fields such as aeronautics, space, embedded systems, robotics, and artificial intelligence—all on a single, collaborative site.

As our metropolitan area continues to grow, we remain committed to fostering an environment that nurtures innovation, strengthens our aerospace heritage, and ensures a prosperous future for generations to come.

Patrick Piedrafita

President - CCI Toulouse Haute-Garonne

“At the CCI Toulouse Haute-Garonne, we are committed to supporting our businesses and shaping the future of our industry. Aeromart offers an unparalleled platform for our regional companies to showcase their expertise and build strong, lasting relationships with international partners and clients. This is why we continue to provide financial and technical support, reaffirming our dedication to the success of this flagship event in our region.

This year, we are especially proud to champion five innovative startups from our region at Aeromart: HYCCO, OLEDCOMM, TACITA Dynamics, TIDAV, and VIRAJ H2.”

Toulouse Team Invest: Free and confidential support for your innovative project to set up in Toulouse.

Toulouse Team Invest is part of the economic development department of Toulouse Team, the metropolitan area's agency.

Toulouse Team Invest's mission is to support innovative companies, both national and international, in strategic sectors such as aeronautics, space, digital technology, future mobility, life sciences, and green energy.

The team works with project leaders of all nationalities (USA, Canada, Europe, Japan, Singapore, etc.) who are looking to establish their business in Toulouse. Toulouse Team Invest facilitates connections between these companies and key local players for their development (potential clients, partners, laboratories, etc.). These meetings are organized during a personalized "2-Day B2B Tour." During these days, project leaders also have the opportunity to meet experts to refine their business plans or visit potential premises.

With over 230 companies supported and the creation of 4,500 jobs, our team of experts offers personalized support at every stage of the establishment process, while ensuring a free and confidential service.

AD'OCC: Unlocking Economic Potential in Occitanie

Tailored services to meet your business needs

As the economic development agency for the Occitanie Region, AD'OCC offers a comprehensive 360° program with four key components designed to support your growth:

- **Financing: Subsidies, Advances, and Financial Engineering**

Finance is the backbone of your business. To ensure it becomes a catalyst rather than a challenge, we assist with the financial engineering of your investment projects and the structuring of your company's finances.

- **Exporting and Expanding into New Markets**

Selling your products internationally can be transformative. Whether it's an initial test or a large-scale rollout, we tailor solutions to align with your development strategy and help you conquer new markets.

- **Innovation and Business Transformation**

Success in innovation and transformation depends on informed decisions. We guide you in making the right technical and strategic choices while connecting you to research institutions and laboratories.

- **Setting Up and Growing in Occitanie**

Occitanie is an exceptional region for businesses to thrive. With our in-depth knowledge and confidence in the region's potential, we'll help you find the perfect location and support your expansion efforts.

AD'OCC and the Aerospace Industry

As a key player in one of the region's leading industries, AD'OCC is committed to driving innovation and supporting the aerospace ecosystem in Occitanie.

ABOUT AEROMART TOULOUSE 2024

ABOUT

Aeromart Toulouse, the leading event for the aerospace industry, will be held from December 3 to 5, 2024 at MEETT for its 15th edition! This international business convention, which brings together professionals from the aeronautics and space industries, will be featuring a host of new players from new sectors such as UAVs (unmanned aerial vehicles) and Advanced Air Mobility.

Aeromart provides an exceptional platform for networking, knowledge sharing, and forging strategic partnerships. Attendees will have the chance to participate in high-level conferences led by industry leaders, exploring cutting-edge topics such as digital continuity, operational excellence, or decarbonized business air travels.

Beyond the conferences, Aeromart Toulouse features pre-scheduled business meetings designed to connect suppliers, prime contractors, and key players within the aerospace ecosystem. The program is further enriched with specialized workshops and live demonstrations, offering hands-on insights into the latest technologies shaping the industry.

Aeromart Toulouse has been around since 1995!

This benchmark event for the global aeronautical supply chain is held every two years in Europe's aerospace capital!

STARTUP PAVILION

powered by

For the first time, Aeromart Toulouse will feature, the AeroLabs pavilion, a startup zone providing an opportunity for 13 cutting-edge startups to showcase their innovative technologies and solutions to the aerospace industry.

WEBCAST STUDIO

All participating startups will have the chance to be interviewed live on the AeroLabs Webcast Studio stage, showcasing their company and innovative solutions. These interviews will be shared across all Aeromart social media platforms, amplifying their reach and visibility within the aerospace community.

NET ZERO FACTORY EXPO

Aeromart Toulouse will take participants on an insightful journey to explore the challenges and innovative solutions driving the decarbonization of the aerospace industry.

GENERAL INFORMATION

VENUE

MEETT - TOULOUSE EXHIBITION CENTER
Concord Avenue, 31840 AUSSONNE, FRANCE

Aeromart Toulouse is located in halls 1, 2, and 3 (entrance to the event is through Hall 1 only)

OPENING HOURS

WEDNESDAY, DECEMBER 4, 2024

Registration: 8:30 - 18:00

Exhibit hall hours: 8:00 - 18:30

THURSDAY, DECEMBER 5, 2024

Registration: 8:30 - 12:30

Exhibit hall hours: 8:00 - 18:00

ADMISSION

All pre-registered participants are required to print their badge and wear it upon arrival to access the event premises.

All visitors must purchase their tickets in advance through the online platform, [here](#).

BADGES

On the Aeromart Toulouse premises, it is mandatory to wear your badge at all times for safety and security reasons.

CONFERENCE
PROGRAM

WEDNESDAY, DECEMBER 4

Disruptive Leaps in Materials Sourcing thru AI & Digitalization

🕒 10:10-10:40 | 📍 Conference Room 3

Material sourcing is one of the biggest challenges today, fighting against inflation, supply shortages, no stock availability, faltering markets, war and crisis. Material bans and embargos, legal and environmental restrictions and supply chain regulations even intensify these challenges. The speech will show how MoovinV helps its customers to utilize its software tool (JULIE AGILE SOURCING) and integrated AI services to overcome these challenges and to even turn them into a competitive advantage. Finally we will chat out of the box, how to use the shown solutions in fully integrated and compliant Aerospace approval and sourcing processes.

SPEAKER:

Dr. Ing. Toni EHRIG, CTO - MoovinV Inc.

Investing in Toulouse and the Occitanie Region

🕒 10:10-10:40 | 📍 Toulouse & Occitanie Pavilion

Come explore the dynamism of Toulouse and the Occitanie region, and discover the strengths of our thriving aerospace ecosystem. Philippe and Charlotte will showcase some of our local success stories and offer valuable tips for growing your business in the region.

SPEAKERS:

Philippe BAYLET, Head of Department for Attractiveness and Export in Aerospace, Space and Smart Transportation - **AD'OCC**

Charlotte VOISIN, Head of Aerospace Sector - **Toulouse Team Invest**

Driving Performance in the Supply Chain with Digital Continuity

🕒 10:45-11:50 | 📍 Conference Room 2

Increased production rates call for strategic planning, accelerated digitalization and stronger partnerships with all players in the supply chain. This round table aims to take stock of the transformations needed to optimize production lead times and secure supplies.

The aim is to raise awareness of the challenges linked to production lead times, performance evaluation, and the importance of integrated digital continuity, providing an overview of the progress of each stage of production. Data sharing is a strategic issue, requiring negotiation and contractualization to guarantee both confidentiality and information integrity.

SPEAKERS:

Philippe GROSBOIS, Digital Program Director, Aerospace & Defense Digital Ecosystem - **Airbus**

Christophe RODRIGUES, Product Manager - **BoostAeroSpace**

Ghislain DE ROECK, Transformation Director - **Liebherr-Aerospace and Transportation SAS**

Moderator: Chris BOCKMAN, Journalist

Strategic Cooperation between Occitanie and the Clean Aviation Joint Undertaking: Contribution from Occitanie-Based SMEs

🕒 10:10-10:40 | 📍 Toulouse & Occitanie Pavilion

We'll welcome experts to the Toulouse & Occitanie pavilion during #AeromartTLS24. They will highlight the work of innovative SMEs based in Occitanie that are making great strides as part of the strategic cooperation between the Region and the Clean Aviation Joint Undertaking.

SPEAKERS:

Emilie AUBRY, Aerospace Industry Innovation Officer - **La Région Occitanie / Pyrénées-Méditerranée**

Marc CAPDEPUY, Chairman of the Board of Directors - **Artec Aerospace**

François DORGERET, CEO - **Tacita Dynamics**

Alain GRAILLOT, COO - **Specific Polymers**

David HARDY, CEO & CTO - **Veso Concept**

Paul MASSON, CFD Engineer - **Zelin**

Nicolas MERCADIER, Product Line Manager - **Vodea**

Laurent PEREZ, Innovation Funding Officer - **Aerospace Valley**

Daniele VIOLATO, Head of Synergies - **Clean Aviation Joint Undertaking**

Nicolas ZIEGLER, CEO - **Erneo**

Moroccan Aerospace Industry: Supply Chain & Human Resources – New Opportunities For Competitiveness

🕒 11:55-12:25 | 📍 Conference Room 2

SPEAKER:

Maria EL FILALI, General Manager - **Groupement des Industries Marocaines Aéronautiques et Spatiales (GIMAS)**

Accessing Indian Market for Aerospace, Defence and Space – Roadmap and Case Studies from Telangana

🕒 14:00-14:30 | 📍 Conference Room 2

Telangana is the most vibrant aerospace, Defence and Space ecosystem in India. It hosts a large number of Public sector Defence labs and production units and is also the preferred manufacturing hub in India for global Aerospace OEMs such as Lockheed Martin, Boeing, Airbus, Safran, GE Aviation etc. The State has more than 1000 SMEs in the precision engineering industry, many of which are integrated into the global Aerospace manufacturing supply chain.. The presentation shall cover the policies, ecosystem, and a roadmap for tapping the large market opportunities emerging in the Aviation, Defence and Space industry in India.

SPEAKER:

Praveen PA, Director of Aerospace & Defense Sector - **Government of Telangana, India**

Towards Efficient Disruptive Technologies for New Aircraft in Service by 2035

🕒 14:35-15:05 | 📍 Conference Room 3

The presentation will focus on the status of the 28 clean aviation projects underway to date, and on the next challenges for clean aviation to support the aviation sector's transition to carbon neutrality. An introduction to the next steps in the Clean Aviation program will be given, with a focus on the future challenges expected from the launch of a new series of "calls for proposals" starting in February 2025.

SPEAKER:

Sébastien DUBOIS, Head of Unit – Programme Development and Communications - **Clean Aviation Joint Undertaking**

Operational Excellence: a Key Success Factor for the Supply Chain

🕒 14:35-15:40 | 📍 Conference Room 2

SPEAKERS:

Christophe DELQUÉ, General Manager - **SPACE Aero**

Nicolas JUVIGNY, Procurement, Transformation & Risk Management - **Thales Avionics**

Benoit MOLARD, CEO - **BoostAeroSpace**

Thierry QUILLET, Chief Operating Officer - **Groupement des Industries Françaises Aéronautiques et Spatiales (GIFAS)**

José Manuel ROMERO, Supply Chain Director, Engineering - **Héroux-Devtek**

Moderator: Chris BOCKMAN, Journalist

The Greek National Security R&D Ecosystem: Exploring New Synergies

🕒 15:10-15:40 | 📍 Conference Room 3

The Greek Ministry of Defense has established itself as a partner in EU-funded R&D projects (HE, HORIZON, EDF).

There is currently an ever-expanding R&D ecosystem in Greece, in which the Ministry of Defense plays a central role by acting as a hub, bringing together the European business community and the Greek armed forces, and matching their skills with real R&D challenges. The presentation will highlight the R&D profile of the Greek Ministry of Defense and explore potential new synergies with AEROMART 2024 participants.

SPEAKER:

Lt. Colonel Anthimos TSIRIGOTIS, R&D Project Manager - **Hellenic Ministry of Defense**

Wings Project (Walloon Innovation For Green Skies) - Feedback and Future Vision from a 21-Partner Walloon Project Focusing on Technologies to Decarbonize Aviation By 2050

🕒 15:45-16:15 | 📍 Conference Room 3

WINGS (Walloon Innovation for Green Skies) is a €148M, 56-month project funded by the Walloon Region involving 21 Walloon partners and 280 full-time equivalents focused on technologies to decarbonize aviation by 2050. The project is divided into 6 Work Packages: Aerostructure, Propulsion, Communication, Material & Processes, Digitalization & Digital Simulation and Industry 4.0. The project was born in October 2020 thanks to the support of the Walloon Region to enable the aerospace actors to continue their efforts to develop technologies for decarbonized aviation.

SPEAKERS:

David DUMAS, Senior Research Engineering and Theme Leader - **Cenaero**

Nicolas RAIMARCKERS, Project Leader, Innovation - **Safran Aero Boosters**

Leveraging Automated Guided Vehicles for Machining Aerospace Parts

🕒 16:20-16:50 | 📍 Conference Room 3

To increase efficiency and reduce staffing requirements in aerospace parts manufacturing, it is increasingly important to use automation solutions. Automated guided vehicles (AGVs) are frequently used in the manufacturing and logistics sectors. However, they are rarely used in combination with machine tools to manufacture aerospace parts. This presentation will show why a GROB AGV system is more efficient than a conventional flexible manufacturing system (FMS). An AGV system saves space, improves internal transport of materials and connects many plant resources. The benefits in terms of production are more extensive than for the machining of aerospace parts.

SPEAKER:

Richard KELLETT, Key Account Manager Aerospace - **GROB-WERKE GmbH & Co. KG**

Operational Excellence: a Key Success Factor for the Aftermarket

🕒 16:55-17:55 | 📍 Conference Room 2

Airbus Sustainability Roadmap & Expectation towards our Supply Chain

🕒 09:35-10:05 | 📍 Conference Room 1

Presentation of Airbus' commitments and our main actions in each of the 3Ps: People, Prosperity, Planet.

For each of them, focus on the role of our Supply Chain in contributing to this sectoral commitment.

SPEAKER:

Andreas HERMANN, SVP Sustainability Roadmap & Business Integration - **Airbus**

Decarbonizing Business Air Travel: On the Path to Zero Emissions?

🕒 10:10-11:50 | 📍 Conference Room 1

As we envision the future of business air travel, sustainability and carbon neutrality stand out as major challenges. With aircraft production at record highs and traffic returning to pre-pandemic levels, the essential task is achieving decarbonization to sustain this growth. This panel will provide an overview of the challenges related to the production and distribution of sustainable aviation fuels (SAF), the adoption of more fuel-efficient aircraft, and the promotion of business fares that incorporate sustainability criteria, distributed by airlines and travel agents using digital tools. Additionally, Airbus will share its business travel policy, illustrating the importance of encouraging voluntary demand.

SPEAKERS:

Fanny CABET, Head of Communication and Travel Procurement - **Airbus**

Carolina DEPONGE, Business Manager - **Easyjet**

Raphael DUFLOS, Head of Corporate Services General Procurement - **Airbus**

Romain LUISETTI, Deputy Director Sustainability and New Mobilities - **Air France**

Julien MANHES, Head of Sustainable Aviation Fuels and Carbon Dioxide Removal - **Airbus**

Michael NAU, Director Sales & Sustainability - **Lufthansa**

Lutz NAUERT, Managing Director - **BCD Travel**

Moderator: Chris BOCKMAN, Journalist

Securization of Industrial Risk at Thales' Supplier Sites in a Troubled Context and with Major Stakes of Ramp-Up

🕒 10:10-10:40 | 📍 Conference Room 2

Recent incidents, including six fires at Thales supplier production sites in 2024, highlight the critical importance of managing risks related to fire and safety. These events also echo the rise in malicious acts targeting the Defense Industrial and Technological Base, taking on heightened significance in the context of the War Economy.

As key contributors to French sovereign programs, Thales suppliers play a vital role in ensuring the delivery of critical products. It is essential that they proactively prevent risks at their facilities to safeguard operations and enable Thales to meet its commitments, particularly to the Ministry of the Armed Forces.

In this context, Thales calls on its suppliers to:

- Commit to securing their sites against potential threats.
- Accelerate the implementation of mitigation plans to address fire risks effectively.

Your cooperation in strengthening these measures is crucial to ensuring the resilience of our shared supply chain and the success of critical national programs.

SPEAKER:

Damien ROMEGOUX, VP Procurement, Mechanical Segment - **Thales**

Space Awards for Best Improvers 2024

🕒 10:45-11:15 | 📍 Conference Room 2

Congratulations to the winners:

Mathieu PACAULT, CEO - **Aries Manufacturing**

Frédéric MAIGNAN, Sales Manager - **Tronico**

Ceremony presented by: **Christophe DELQUÉ**, General Manager - **SPACE Aero**

Qualified Hexavalent Chromium-Free Alternatives for a Short Take-Off

🕒 11:20-11:50 | 📍 Conference Room 3

REACH has enabled significant investment in the development of safer solutions, with clear benefits for human health, the environment and the companies concerned. Beneficiaries include manufacturers and end-users.

The introduction of four main alternatives to hexavalent chromium marks an important milestone:

- Substitutions to OAC.
- Three alternatives to replace OAS formerly sealed with hexavalent chromium.
- Three alternatives to hexavalent chromium-coated hard anodizing.
- Four alternatives for conversion to hexavalent chrome.

These options offer a wide range of possible combinations according to industrial needs.

The comparative assessment evaluates the performance of these alternatives: some are better, others still need fine-tuning.

Finally, a new, innovative and qualified treatment is shown to be economical and highly effective.

SPEAKERS:

Luc FERMIGIER, Head of Sales - **Aalberts surface technologies**

Cybersecurity: Should We Wait for the Implementation of European or Aviation Regulations (NISV2 and EASA PART IS) to Earn the Trust of our Partners?

Howmet Fastening Systems Howmet Aerospace Distribution – Customized Distribution and Services Solutions

Howmet Fastening Systems & Howmet Aerospace Distribution are uniquely positioned to provide outstanding products and distribution solutions to the global aerospace industry.

As part of **Howmet Fastening Systems (HFS)**, we represent the industry's No. 1 fastening system designer and manufacturer, which operates 27 locations in 10 countries. HFS was born from many famous historical brands and possesses the broadest range of available aerospace fastener patents. HFS produces over 1.5 million active part numbers and delivers over 1.1 billion parts to aerospace customers each year. Howmet Aerospace Distribution (HAD) operates in USA, Europe & Asia with more than 100k SKU in stock based on a full range of fasteners and hardware from all major manufacturers.

As part of **Howmet Aerospace**, we are supported with the vision, values, and global reach of one of the most respected companies in the world with the capacity to anticipate changing market trends and be where our customers need us to be with innovative service solutions that lead to mission success.

We truly view you, our customers, as business partners where we respond to your needs with all-around consultation and solutions which allow you to focus on what you do best - the skillful production, maintenance, overhauling and repair of aircraft, systems, and components.

Our business reaches all four corners of the world. We speak the modern language of business and all the many languages and cultures of our customers.

Our service team is ready to support you.

MISSIONS OF GIMAS

Consolidate and reinforce Morocco's Aerospace Industry competitiveness and contribute to its global exposure. Federate, represent and defend Moroccan companies' interests on public and private, national and international spheres.

Represent its members in national and international airshows - Le Bourget, Farnborough, Aerospace Meetings Casablanca, etc.

Meet the industry's needs in trained workforce with the development of IMA - Moroccan Aerospace Institute.

Integrate research & development in the national aerospace strategy through partnerships with universities and research centers, within AMC - Aerospace Moroccan Cluster

AEROLABS STARTUP PAVILION

AERO LABS

This year, we're proud to welcome 13 startups in the AeroLabs Pavilion!
They will showcase cutting-edge technology and solutions for the aerospace sector.

JOIN US! All startups will have the opportunity to be interviewed on the AeroLabs Webcast Studio stage during two sessions:

Wednesday, Dec. 4: 11:55-12:25

Thursday, Dec. 5: 10:45-11:15

All content will be broadcasted live on all Aeromart's channels.

**Note: The Webcast Studio will also welcome on stage other companies and industry personalities to present their latest innovative solutions and technology.

UN RÉSEAU MONDIAL QUI LIVRE LA MARCHANDISE

Le vaste réseau international d'Air Canada Cargo dessert plus de 450 villes et au-delà de 50 pays au moyen de vols de passagers, de vols tout-cargo et de services de camionnage.

Nous offrons aussi des vols à la demande et sur mesure adaptés aux envois urgents ou spécialisés.

Pour nous joindre, visitez aircanadacargo.com.

10 | JOINT EVENTS

Alongside Aeromart, two complementary events will take place, offering participants a comprehensive 360° perspective on the technological challenges and opportunities shaping the aviation sector: Green Aero Days and Future Intelligence.

Towards sustainable light aviation

DATES: December 3-4, 2024

ABOUT: Two days of conferences and B2B meetings bringing together aircraft manufacturers, equipment suppliers, experts, airport managers, energy providers, investors, and regional, national, and international organizations—all collaborating today to shape the **low-carbon light aviation of tomorrow**.

WEBSITE: green-aero-days.com

ORGANIZED BY:  

ALL AEROMART PARTICIPANTS MAY VISIT THE EXPO AND ATTEND THE CONFERENCES

Trustworthy AI for Aeronautics

DATES: December 5, 2024

ABOUT: A full day of conferences featuring AI and aerospace experts will explore the challenges and technological advancements of artificial intelligence in the industry. The event will also showcase several cutting-edge AI programs driving innovation in aerospace.

WEBSITE: futureintelligence.tech

ORGANIZED BY:
