

# SUSTAINABLE AEROSPACE INNOVATION PAVILION

by

Engineered for Sustainability. Built for Aerospace.

December 1-3, 2026

Toulouse, France

Organized by

 BCI AEROSPACE

In collaboration with

 AIRBUS

# A Strategic Pavilion Driving Aerospace Transformation

The Sustainable Aerospace Innovation Pavilion brings together industry leaders accelerating:

- Bio-based materials integration
- Circular supply chain models
- Aerospace decarbonization strategies

Position your company at the core of aerospace industrial transformation.

## Focus Areas

### Bio-based Innovation

Advanced natural fiber composites • Sustainable materials engineering • Certification & market adoption

### Circular Economy

Recycling technologies • Material recovery • Upcycling • Closed-loop manufacturing systems

### Aerospace Decarbonization

Low-carbon processes • Energy-efficient production • Sustainable propulsion & systems innovation

## What is Aeromart Toulouse?

Aeromart Toulouse is a leading international B2B convention for the aerospace supply chain, connecting OEMs, Tier-1 suppliers and innovative companies through pre-scheduled business meetings.

**1,200** Companies  
**5,000** Participants  
**40** Countries

## Why Exhibit?

- ✓ Direct exposure to major OEMs and Tier-1 decision-makers
- ✓ Targeted B2B meetings scheduled in advance
- ✓ Visibility through Aeromart's digital platforms
- ✓ Positioning in a global aerospace business ecosystem

## Exhibit Packages

### First-time Aeromart exhibitors

- Dedicated branded kiosk
- B2B meeting agenda
- Showcase your solution within a collaborative space
- 2 exhibitor passes

€ 1,580

### Current Aeromart exhibitors

- Get a branded totem displayed near the Pavilion's collaborative showcase area

€ 500

## Join the Sustainable Aerospace Innovation Pavilion
